

Sensors

New sensor detected :

Name: Goldfish 3-axis Accelerometer

Type: 15

Version: 1

Resolution (in the sensor unit):

2.480159E-4

Power in mA used by this sensor while in

use 3.0

Vendor: The Android Open Source

Project

Maximum range of the sensor in the sensor's unit. 2.8

Minimum delay allowed between two

events in microsecond or zero if this

sensor only returns a value when the data

it's measuring changes 10000

New sensor detected :

Name: Goldfish 3-axis Gyroscope

Type: 15

Version: 1

Resolution (in the sensor unit): 0.001

Power in mA used by this sensor while in

use 3.0

Vendor: The Android Open Source

Project

Maximum range of the sensor in the sensor's unit. 11.111111

Minimum delay allowed between two

events in microsecond or zero if this

sensor only returns a value when the data

it's measuring changes 10000

New sensor detected :

Name: Goldfish 3-axis Magnetic field
